

# Scarlett Payroll

Production Release - V1.7.0

# Improved Access to Compliance Document Downloads

We've enhanced the compliance section in Scarlett Pay for better efficiency. Previously, the *Merge & Download* and *Zip & Download* options were located at the bottom of the checklist, requiring excessive scrolling for long lists.

Now, a new **Actions** button at the top of the section provides quick access to these options, enabling faster and easier document management for administrators

# Color-Coded Compliance Status in Email Notifications

To improve clarity and efficiency, compliance-related email notifications now feature color-coded status indicators:

- Compliance Complete – highlighted in **green**
- Compliance After Cut-Off – highlighted in **blue**
- Compliance Declined – highlighted in **red**

These visual cues help agents quickly identify the status of their submissions immediately.
